# The table that will end this damn argument about tables.

	Nested Columnar	Flat Relational	Normalized Rel.
Storage (space)	WIN	LOSE	WIN
Reads (Scans)	WIN	LOSE (too big!)	LOSE (joins)
Reads (Point)	LOSE	WIN	WIN (ish, still joins)
Writes (Append)	WIN	LOSE (big, must flatten)	WIN
Writes (Update/Modif.)	LOSE	LOSE (big – mult. entry)	WIN
Invented by Google	WIN	LOSE (not cool)	LOSE (not hip)
